

Theme: Crafting a climate change resilient development path for social and economic security in developing countries.

CLIMATE CHANGE CONFERENCE

5 & 6 MARCH 2020

Protea Marriott Hotel, Victoria Junction, CAPE TOWN

Speakers Include:

Maesela Kekana

Chief Director:
International Climate Change Relations & Negotiations
Department of Environmental Affairs

Dr Robert Raw

Chief Operating Officer
C4 EcoSolutions

Sifisosami Dube

Head Governance and SRHR
Genderlinks

Dr Tony Surridge

General Manager : **Advanced Fossil Fuel**
Head: **South African Centre for Carbon Capture & Storage/SANEDI**

Nadine Botto

Administration and Co-ordination
Greenpop

Sipho Mthathi

Executive Director
Oxfam

Dr Ian Little

Senior Manager
Habitats at Endangered Wildlife Trust

Fabio Venturi

Managing Director
Terramanzi

Objectives

- To discuss solutions and knowledge that can prevent dangerous human interference with climate change
- To see climate action happening around the African continent
- To discuss ways of sustaining the ecosystem to adapt naturally to climate change
- To enable economic development to proceed in a sustainable manner through discourse and implementation
- To analyze climate change policies in the African continent
- To promote partnerships in climate change mitigation and adaptation
- To bring together private and public players of climate change in order to strengthen the response towards climate change issues and make economies viable for the benefit of all
- To craft a climate change resilient development path for social and economic security in developing countries

Why attend the conference

- Understand the crisis that climate change is presenting
- Get exclusive insight on how to mitigate climate change effects
- Be part of the designers of a unique international response on climate issues
- Meet inspiring speakers, new experts and members of other think tanks
- Build Strategic Business Connections
- Gain New Insights
- Collaborate with the leaders in the fields of Climate Change
- The focus and energy of Like-Minded Individuals
- Take advantage of tools to support your climate action strategies
- Be inspired by the experience of other cities

Organised by

CLIMATE CHANGE CONFERENCE 5 & 6 MARCH 2020

Protea Marriott Hotel, Victoria Junction, CAPE TOWN

Conference Background

Southern Africa has been described as a climate change hotspot in a recent IPCC Special Report on Global Warming with rising temperatures, droughts, flooding, and unpredictable weather systems set to become the new uncomfortable normal. We are starting to see the life-threatening impact of climate change on health, through air pollution, heatwaves and risks to food security and it's also disrupting economies, costing us dearly today and even more tomorrow.

On the other hand, new climate research shows 300 million people living along the world's coasts could be hit by devastating flooding by 2050, about three times more than previously estimated.

As the world faces a worsening climate crisis, there have been calls for organizations and individuals alike to deliver new pathways and practical actions to shift the global response into higher gear.

This conference recognizes that climate change is the defining issue of our time and will use this opportunity to do more about it by bringing together government departments, the private sector, NGO's, local authorities and other organizations to provide sustainable solutions for climate change causes and effects.

Who should attend (but not limited to)

Key sectors

- Government and local authorities
- Waste management players
- Educational Institutions
- Health
- Manufacturers
- Industry and commerce
- Construction
- Infrastructure development
- NGOS's

Who Will Attend?

- Climatologists
- Academia
- Meteorologists
- Geologists
- Environmental researchers
- Hydrologists
- Marine biologists
- Oceanographers
- Ecologists
- Chemical researchers
- Geo Scientists
- Environmental engineers
- Waste management researchers
- Earth scientists
- Researchers

- Geophysicists
- Geological Associations and Societies
- Sustainability Strategists
- Business Entrepreneurs
- Policymakers

- Lobbyists
- Government departments
- Farmers
- Agriculturalists
- Air quality officers
- Water engineers
- Climate and environmental activists
- Oil and gas players
- Chemists
- Municipalities
- Waste processors
- Transporters
- Product Managers
- CEO'S
- Top Management
- Government officials

Aspects to be covered (but not limited to)

- Standards compliance and regulations
- Infrastructure development and climate change
- Tourism recreational facilities and the climate change impact
- Funding and investment in climate issues
- Technological innovations and developments in climate related technologies
- Renewable energies and climate vitality
- Climate change and investment-a look at the effects of climate change on different business categories
- Climate financing and carbon pricing
- Climate change adaptation and the African agricultural sector
- Youth Mobilisation and engagement in climate change matters
- The impact of government action or inaction to climate change matters
- Climate Change's growing and potential impacts on health
- Geo-engineering
- The future of recreation and tourism in the face of climate change and global warming
- Carbon emissions
- Hazardous Waste Management, renewable energies and climate vitality
- Air quality Management
- Regulating the coal industry
- Disaster preparedness for extreme weather conditions

Theme: Crafting a climate change resilient development path for social and economic security in developing countries.
