Webinar Background

Vukani Communications is back again with the Cannabis Webinar, this time around, government departments directly involved in the cannabis industry will be present to respond to all your questions. The webinar will be held on 27 November 2020.

This is a one-day Webinar intended to shed light on the current cannabis industry from the government perspective. The outcome of the just ended Cannabis Webinar hosted on 11 & 12 September 2020 recommended that the government departments that are directly involved in Cannabis industry policy formulations be brought under one roof to deliberate on the 2021 Cannabis Industry Outlook. Various deliberations were done that involved various provinces, however, the 2021 National Cannabis Conference in February 2021 would be productive with the brief from these various departments at this stage.

Despite the cannabis legalisation passed for cannabis, people are still getting arrested. There is need for a clear policy on this. Also, despite the President Cde Cyril Ramaphosa announcing the economic stimulus package for the cannabis industry, not everyone knows where to start and where to go. A lot is happening that is confusing potential farmers, investors and citizens at large.

That is why we are bringing to the roundtable, all the national departments involved to give you a detailed discussion on what is happening and on the future of cannabis in the country

This is a must attend Webinar to get answers on where to start, how to proceed and what the future on cannabis in the country holds. Should you have burning questions for the Government Departments, then do not miss out on this opportunity

Target Market (but not limited to)

- Academic fraternity
- Cannabis sativa growers
- Academics
- Funders
- Regulators
- Innovators
- Advertising professionals
- Agricultural policy makers
